Unlimited Wireless-to-Cellular Failover

Keep your business running with unlimited wireless-to-cellular protection via MobileWall's UptimePlus.

UptimePlus

The MobileWall UptimePlus bundle offers quickly deployable, UNLIMITED wireless failover at a low, set monthly fee with no overages. With UptimePlus you get a reliable business continuity solution without the risks of unpredictable monthly fees or the possibility of unanticipated overages. Take the guesswork out of wireless failover. No risks, no worries, no bill-shock!

UptimePlus Benefits:

Unlimited Failover Data

Unlimited business essential data during a failover event

Cost Management

End bill shock and down time with guaranteed, affordable protection.

Security

Secure all data traffic by operating over a private mobile network.

Alerting

Automated alerting and failover protection ensures you are ahead of any network disturbances.

White Glove Support

UptimePlus is pre-configured for near out of box functionality. 24 hour support teams actively monitor services to make sure your business is always connected.
